BOCCE AREA

Bocce is loved by people of all ages. Competitors or teams lob a total of eight bocce balls as close as possible to a smaller white ball called the 'pallino.' It is estimated that the game originated in 5200 B.C. It is still played today all over the world — the second most played ball sport, behind soccer. Corniche is the best place to play bocce in the Meydan area.

ZEN GARDEN

The sand or gravel in a Zen garden represent the sea or ocean and is used instead of water. Corniche Zen garden is carefully raked by our designers to create the impression of waves on the surface of a body of water. The rocks themselves represent islands or rock formations jutting out from the water.

As every good pet owner could tell you, being a good companion is a two-way street. Pets give people a lot of affection and fun, but they need to be taken care of, too. Since dogs need more than just food and sleep to stay healthy, finding ways to get them outside and active is so important. Our pet play area gives the animals the opportunities to exercise their growing minds and bodies outside.
